

Erstes Rechnen im Zahlenraum 20

Wie heißen die Zahlennachbarn?

\square 13 \square

\square 17 \square

\square 15 \square

\square 12 \square

\square 19 \square

\square 11 \square

\square 14 \square

\square 16 \square

\square 18 \square

Rechne:

$10 + 3 = \square$

$10 + \square = 19$

$10 + 5 = \square$

$10 + \square = 18$

$10 + 9 = \square$

$10 + \square = 12$

$10 + 1 = \square$

$10 + \square = 15$

$10 + 4 = \square$

$10 + \square = 13$

$10 + 7 = \square$

$10 + \square = 20$

$10 + 2 = \square$

$10 + \square = 11$

$10 + 6 = \square$

$10 + \square = 16$

$10 + 8 = \square$

$10 + \square = 14$

$10 + 10 = \square$

$10 + \square = 17$
